1st question block:

Yellow Fairy:

- You're the Leofis who's on an adventure to vanquish the dragon, aren't you?
- My name is Woray.
- The dragon that had been kept under control by the fairy kingdom has escaped.
- Since it seems as though he's wreaking havoc on this kingdom, I'll lend you my power.

*Leofis can now use the Serpent Path!*

Woray:

- You use the Serpent Path by aiming with the mouse.
- Head for targets, and you can hurl yourself at them again and again, thus continuing to forge ahead!
- Try tracing the three sunflowers above by dragging your mouse over them starting from below!

After completion:

Woray:

- You got it!
- You can also use the serpent path on things like apples and enemies! It works for all kinds of things.

2<sup>nd</sup> question block:

- The dragging mechanic can aim at up to three targets at a time. Be sure to remember that.

3<sup>rd</sup> question block:

- With the **Serpent Path** you can also aim at objects on the other side of walls!

4<sup>th</sup> question block:

- You can totally even use the Serpent Path while in midair!

*(Note that when you clear a stage, you get an apple bonus equal to the maximum combo bonus you achieved during the stage.)*

First time on the world map:

Woray:

- Alright! Continue onto the next stage!
- ...But before you do that, it might be a good idea to go touch that "S" block on the left.
